

# Do your clients have a gap in their strategy?

## The great retirement income gap.

It happens when your clients' income needs unexpectedly change... and their expenses suddenly exceed their budget.

When your clients aren't prepared for the retirement income gap, the future they've worked and planned for could be jeopardized. At the same time, their income gap can impact your business as well.

Connect with your clients to create a financial strategy with OneAmerica® Care Solutions. Our tools and resources efficiently communicate with clients about their retirement income plans, risks and possibilities.

Help your clients close the retirement income gap (and close your own income gap, too!)
